

FIR DATA - GENERAL INFORMATION

Each observation (Row) contains a nearly complete FIR* for a municipality for a given year.
Each variable (Column) represents a piece of information from that municipality's FIR for that year.

Most variables use a "SLC" naming convention in the following format: "**slc.xx.yyyy.zz**"

Where: **xx** = Schedule
 yyyy = Line
 zz = Column

Example: **slc.10.9910.01** refers to **Schedule 10, Line 9910, Column 1** (Total Revenue)

Data for municipalities that have not yet submitted their FIR for a given reporting year is represented by "NA".
